

Math Placement Questionnaire

Use this questionnaire to determine which level of math your child is ready for.
If you answer "no" to a question, your child should probably be placed in that level.

	Yes	No
Has your child completed kindergarten?	<input type="radio"/>	<input checked="" type="radio"/> Age 4-5
Can your child recognize, understand, and write numbers 1-20?	<input type="radio"/>	<input checked="" type="radio"/> Age 4-5
Does your child know addition and subtraction facts to 10?	<input type="radio"/>	<input checked="" type="radio"/> Age 5-7
Does your child understand place value to the tens?	<input type="radio"/>	<input checked="" type="radio"/> Age 5-7
Can your child add and subtract two two-digit numbers?	<input type="radio"/>	<input checked="" type="radio"/> Age 5-7
Is your child able to interpret pictographs, bar graphs, and line points?	<input type="radio"/>	<input checked="" type="radio"/> Age 6-8
Does your child understand place value to 1000?	<input type="radio"/>	<input checked="" type="radio"/> Age 6-8
Can your child add and subtract three-digit numbers?	<input type="radio"/>	<input checked="" type="radio"/> Age 6-8
Can your child multiply fluently within 100?	<input type="radio"/>	<input checked="" type="radio"/> Age 7-9
Can your child add and subtract four-digit numbers?	<input type="radio"/>	<input checked="" type="radio"/> Age 7-9
Can your child identify, create, and compare simple fractions?	<input type="radio"/>	<input checked="" type="radio"/> Age 7-9
Can your child explain and find the perimeter and area of simple polygons?	<input type="radio"/>	<input checked="" type="radio"/> Age 7-9

Does your child understand place value to 1,000,000 and to 0.001?	<input type="text"/>	Age 8-10
Can your child multiply multi-digit numbers? (527×62)	<input type="text"/>	Age 8-10
Can your child complete long division with remainders? ($6213 \div 4$)	<input type="text"/>	Age 8-10
Can your child add, subtract, multiply, and simplify fractions?	<input type="text"/>	Age 8-10
Can your child multiply fractions, including mixed numbers, and divide unit fractions?	<input type="text"/>	Age 9-11
Can your child add, subtract, multiply, and divide decimal numbers to the hundredths place?	<input type="text"/>	Age 9-11
Can your child graph points with positive-number coordinates on a coordinate plane?	<input type="text"/>	Age 9-11
Can your child find the volume of rectangular prisms?	<input type="text"/>	Age 9-11
Can your child solve problems involving ratios, rates, and percentages?	<input type="text"/>	Age 10-12
Can your child solve multi-step equations and inequalities containing a variable?	<input type="text"/>	Age 10-12
Can your child solve problems involving negative numbers and absolute value?	<input type="text"/>	Age 10-12
Can your child divide fractions by fractions?	<input type="text"/>	Age 10-12

If you answered yes to all of these questions, you are ready for a more advanced math course than we currently offer. We are actively developing more advanced levels, so you should check back with us next year. In the Age 4-5 level, math is fully integrated into the daily unit studies and is not available separately.

If you have questions, please don't hesitate to contact us at info@movingbeyondthepage.com or (979) 314-9938.
