

Moving Beyond the Page
Age 4-5 – G – The Real Mother Goose
Correction

When we first released the Age 4-5 level, we sold a version of *The Real Mother Goose* that had different page numbers from the one that the book was written for. If you received a version of *The Real Mother Goose* that says “Scholastic” on the front cover, then you will need to use the following page numbers as you use the curriculum. If your version says “Dover” on the spine, then the page numbers in the curriculum will work fine.
